

## List of Chinese Companies - CCCME Delegation

	Company	Company Profile	Industry	Interest of Cooperation
1	China Chamber of Commerce for Import and Export of Machinery and Electronic Products	China Chamber of Commerce for Import and Export of Machinery and Electronic Products (hereinafter referred to as “CCCME”), founded in 1988, is a national social organization serving the production and import and export trade of China’s machinery and electronic products, overseas investment cooperation and related activities. CCCME has over 10,000 member enterprises covering a wide range of industries and the complete supply chains, representing the industry as whole. It has 21 industry branches, one Expert Committee and 6 working committees. After years of efforts, CCCME has established close cooperation and frequent contacts with major international industry organizations and large multinational groups. Its commitment and achievements in building a series of brand service projects through organizing high-end trade and investment promotion activities, facilitating international exchange, improving legal services, conducting exhibitions and other technical services are highly recognized by business community.	Business Association	Trade, Investment
2	Henan Songji (Group) Co., Ltd.	Songji Group was founded in 1988 and is headquartered in Zhengzhou city, Henan Province. It is a diversified enterprise group integrating green building materials, new materials, new energy, green prefabricated buildings, etc. In 2023, its sales revenue reached 3 billion yuan, and total assets at 8 billion yuan. Songji Group has three national level high-tech enterprises, three provincial and municipal level "specialized and new" enterprises, one national level laboratory of quality standards, and 10 provincial and municipal level R&D centers. Its three companies, Songji Cement, Songji Building Materials and Songji New Materials, have achieved comprehensive reuse of resources and in-depth development of the industrial chain. Songji sells electricity and transmits and distributes 1 billion kilowatt-hours of electricity annually. At the same time, it focuses on the new energy field and implements integration of power generation, grids, demand, and storage for the incremental power distribution to provide customers with new power distribution and sales services and become a new power service provider.	New Energy	Energy cooperation, energy storage
3	Shouhang High-Tech Energy Co., Ltd.	Shouhang High-Tech Energy Technology Co., Ltd was founded in 2001 and is headquartered in Beijing. It has branches in Europe, Hong Kong, Shanghai, Tianjin, Xinjiang, Gansu, Xiamen and other places. It is an A-share listed company on the Shenzhen Stock Exchange (stock code 002665), Shouhang High-Tech takes "clean energy, energy saving and environmental protection" as strategic direction of corporate development, and engages in research and development of solar thermal power generation, power station water saving, waste heat utilization, water technology, clean heating, hydrogen energy utilization, smoke plume elimination, as well as services in design, manufacturing, construction, operation and maintenance, project investment and project general contracting.	New Energy	New energy cooperation
4	Hangzhou Guodian Energy Technology Co. Ltd	Hangzhou Guodian Energy Technology Co. Ltd was founded in 2003. It has a Class B qualification for engineering consulting, a Class II qualification for general contracting of power engineering, a Class IV qualification for undertaking (repairing, testing) power construction permits, a Class II qualification for specialized contracting of electronic and intelligent engineering, and a Class B qualification for engineering design in the power industry. It is a national level high-tech and specialized and new enterprise that provides solutions closely related to the "generation, transmission, distribution, sales, design, and construction" of green energy. On the energy distribution side, the company have cooperated with power grid companies in planning consulting, research projects, and scientific and technological projects, and won more than 30 awards from State Grid headquarters, provincial and municipal companies. Its industrial incubation has become an important part of the construction of a new power system in the power grid. On the energy consumption side, the company focuses on six core businesses: digital engineering construction, wind and solar energy storage and charging resource development, electricity market trading, energy-saving technology consulting and project development, multi-layer and three-dimensional carbon asset management, and comprehensive energy solutions for industrial park. Its "6+1" platform provides customers with "one-stop" energy consumption services.	New Energy	New energy cooperation, energy storage

5	Jiangsu Senze Environmental Engineering Technology Co., Ltd.	Jiangsu Senze Environmental Engineering Technology Co., Ltd., founded in 2008, is a national level high-tech enterprise . The company has a registered capital of 50 million yuan, and 1065 employees, including 240 professional and technical personnel. It is a professional air pollution control enterprise with business in scientific research, production, installation and service. It has the capability of design, manufacturing and service of a variety of dust flue gas purification equipments, metal structures and non-standard equipments, as well as leading technology in the treatment of closed submerged arc furnaces. Its technologies for closed submerged arc furnace related recycling and micro-silica powder densification have national patents. sound technology and lea Governance in a closed submerged arc furnace gas has a sound technical and leading technology, closed submerged arc furnace gas recovery technology and encryption technology on micro-silica powder and electrical pulse cleaning compound filter bag to obtain an national patent. In recent years, the company has undertaken more than 90 large-scale environmental management projects in many industries such as metallurgy, chemical industry, electric power, and building materials, including over 50 design, manufacture and installation projects of flue gas and dust purification equipments for large-scale industrial silicon and ferrosilicon plants with a capacity of more than 30,000KVA.	Environmental Protection	Trade
6	Beijing Jiarui Environmental Protection Co., Ltd.	Founded in 2002, Beijing Jiarui Environmental Protection Co. Ltd. (JREP) is a key hi-tech enterprise of Zhong Guan Cun, Beijing. . JREP is a group company of engineering design, technical consultation, EPC, project operation, capital management, technology development, equipment manufacturing in one. JREP's projects can be seen all over the country, including almost 100 demonstration projects in the fields of petroleum and petrochemical, iron and steel coking, water treatment, and other fields. JREP is willing to work with domestic and international businesses to provide service, establish long-term cooperation, and realize a win-win situation.	Environmental Protection	Investment
7	Hunan San'an Semiconductor Co., Ltd.	Hunan San'an Semiconductor Co., Ltd. was established in July 2020. Its business covers research and development, design and manufacturing of Silicon Carbide (SiC)and Gallium Nitride (GaN) power devices. The investment of project was 16 billion RMB, and the total land area is 1000 acres. It is a SiC vertical integration manufacturing platform, which is the 3rd in the world and and the 1st one in China. At present, the current production capacity is 200K pieces of 150mm SiC wafers per year. After completion of all the construction, the annual production capacity of 150mm SiC wafers could reach 500K pieces.	Digital Information	Investment
8	Beijing Combine Tech Co., Ltd.	Beijing Kembai Technology Development Co., Ltd. was established in 2004 in Beijing. Its business scope includes technology development and technical services, sales of chemical raw materials, chemical products (excluding dangerous chemicals), building materials, decorative materials, metal materials, mechanical and electrical equipment, communication equipment, hardware and electrical, computers and accessories, textiles, general merchandise, asphalt, daily necessities, office supplies, auto parts, cosmetics; business consulting; Organizing cultural exchange activities; Import and export of goods and technologies, graphic design and production.	Digital Information	Trade
9	Guangdong LEIYON Intelligence Technology Corp.	Founded in 2005, Guangdong LEIYON Intelligence Technology Corp. is an enterprise that integrates research and development, production, and sales. Since 2007, we have received ISO 9001 quality management system and ISO 14001 environmental management standard. We cover a wide range of audio and video products, such as portable Bluetooth speakers, trolley speakers, soundbar, home theatre systems, Micro/Mini HiFi systems, etc. Our products are now sold to over 100 countries throughout the world with an excellent reputation from our renowned clients.	Electronic Information	Trade
10	Zhejiang Xinwangzhen Technology Co., Ltd.	Zhejiang Xinwangzhen Technology Co., Ltd., with focuse on data technology research and product development, is a leading data service company in China. Its products and solutions are widely used in urban brain, smart emergency, smart cultural tourism and other fields.	Digital Information	Investment

11	Jasonmould Industrial Company Limited	Jasonmould Industrial Company Ltd., founded in 2010, is one of the large-scale plastic mold manufacturers in south China. The company has 170 employees, 11 CNC machines , 68 injection molding machines, and has national environmental protection department emission permit, ISO9001-2008, ISO14000, TS16949, ISO13485, UL and other certifications. Its business is mainly for auto parts, new energy products, home appliances, medical products, aircraft accessories, safety product, lamps, baby safety products and so on. Major markets includes the United States, Europe, and Japan.	Digital Information	Trade, Investment
12	Fujian Yanan Technology Co., Ltd.	Fujian Yanan Technology Co. Ltd., founded in 1995, is committed to provide safe, eco-friendly and green intelligent energy and power system solutions to customers worldwide. Yanan is mainly engaged in alternators, generator sets, intelligent power stations, hybrid micro-grid system, hydrogen fuel cells, mobile/trailer power stations and other intelligent power equipment. It is a national level high-tech enterprise integrating scientific research, production and sales. Yanan has been awarded the honors of United Nations Global Procurement Supplier, China Export Quality and Safety Demonstration Enterprise, National Intellectual Property Rights Advantage Enterprise, national level high and new technology enterprise, Little Giant of Science and Technology Award and Specialized and New Enterprise, etc.	Machinery Manufacturing	Investment
13	Shanghai Jianjing Investment & Consulting Co., Ltd.	Jianjing Investment Consulting Co.Ltd., established in 2003 with registered capital of RMB 50 million. The company holds Grade-A qualifications in Engineering Supervision, Engineering Cost Consulting, and Professional Credit for Engineering Consulting. It has been rated AAAAAA (the highest level) in dynamic credit evaluation. It has 34 branch companies across China, and has developed a comprehensive platform for "Design + Consulting + Law" throughout the entire process of engineering consultancy which offers professional and efficient end-to-end, full lifecycle services to clients across various sectors. Specializing in feasibility studies, investment consultancy, planning and design, cost consultancy, tendering agency services, project management, engineering supervision, international engineering consultancy, and legal consultancy for engineering projects, Jianjing has emerged as a nationally renowned and industry-leading comprehensive engineering consultancy firm.	Investment & Consulting	Infrastructure cooperation
14	Mengnasi International Trade (Hangzhou) Co., Ltd.	Mengnasi International Trading (Hangzhou) Co., Ltd. mainly focuses on import and export commodities such as wine, mechanical and electrical products(environmental protection equipment), and has nearly 20 years of wine brand operation cooperation with the Bordeaux Livière family. Based on the international health brand culture and the purpose of "healthy quality", the company is creating a new, unique and unique comprehensive international brand cultural and creative industry platform that integrates tourism, science education, art and leisure to strive for the "healthy life" of Chinese people.	Machinery & Agriculture	Trade
15	Guangdong Tairong Pharmaceutical Co., Ltd	Tairong Pharmaceutical, founded in 2006 in Guangzhou, Guangdong Province, is a professional supplier that integrates cultivation and production of traditional Chinese medicine, pharmaceutical trade and services. It provides professional pharmaceutical diversified services including product supply, promotion, distribution, customization, training, etc. The four main business areas are cultivation, production, trading and retail.	Health and Medicine	Trade
16	Ningbo Safewell Smart Security Products Co., Ltd.	Safewell is one of the pioneers in the global security field. With the support of strong technical force and R&D team, Safewell Group has become a specialized and collectivized economy entity involving science & technology, industry, trade and investment. Since 1998, it has invested more than 6.5 billion yuan in China, employed about 800 employees worldwide and more than 5,000 in China among its 117 member companies, and has reached an annual global revenue of more than 3.7 billion US dollars.	Smart Security	Trade, Investment
17	CITIC Europe Holdings a.s.	CITIC Europe Holdings a.s. is fully owned by CITIC group. As CITIC's investment platform based in Czech Republic, CITIC Europe, together with its interested partners, is exploring business opportunities in Central and Eastern Europe and regions beyond. Its main businesses include equipment and machinery manufacturing, beer brewing, real estate, hotels, etc. It also actively explores the European new energy market. ŽDAS a.s. is one of the subsidiaries of CITIC Europe.	New Energy & Machinery Manufacturing	Investment
